External Briefing Note

Subject: Polybutylene Water Service Line Replacement – Road Closure

To: Mayor and Council

From: Michael Vos, Director, Operations and Infrastructure

Date: September 18, 2024

Briefing:

The attached is a letter to residents outlining the upcoming polybutylene water service line replacement construction project. The construction will occur on Bayview Avenue, Royal Road, Elmhurst Lane and Loves Road. The construction is anticipated to start the end of September 2024, and is expected to be complete in December 2024. There will be typical construction disturbances such as noise, dust, one road closure, temporary lane closures, temporary driveway closures and temporary water shut offs.

Elmhurst Lane will be fully closed at the north end for the full duration of construction. Access for local residents and emergency services vehicles will be maintained throughout the duration of construction. Residents will be notified 48 hours in advance of temporary disturbances such as limited driveway access or water shut off.

The Town's dedicated webpage georgina.ca/PolyB will be updated at key milestones throughout the project.
