Details of Incident: On September 28th, my mom, my dad, and my daughter Finlay were on our way to my brother Nathan and his girlfriend Natasha's home and Jackson's Point for a barbecue. When we got there, we were greeted by all three dogs: Mini, Gizmo, and Hank. We said our hellos and me my mom my dad and Finlay I decided to go to the beach to enjoy the last Beach day. As we got back the house was busy and Finlay went into the residence to clean off the sand in between our toes and feet, my mom when my dad Paul stayed her back near the bonfire with my brother Nathan, Natasha my brother girlfriend remained inside with us giving us towels to dry your feet Finlay went to go snuggle with Minnie in the living room. Natasha and I were in the kitchen getting a drink after getting a drink I walked out between the living room the kitchen and the dining room to check on Finlay I turned my back for one second to get the charger that I was going to use to charge my phone at that moment I heard the screams of my child screaming bloody murder I turn as quickly as I could to see hank's jaw on my daughter's skull whipping her to the ground and locking his jaw on her skull as she continues to scream out loud in pain. The unbearable horror that my daughter must have been going through at that time. I saw the horror and the pain she was feeling was unbearable. As a mother, no mother should see that whore and you're little child's face of no control over the situation at the mercy of a big animal attack. The amount of blood that was all over her skull on the floor on the walls from her running away the screeching of Screams from her little body was horrifying. Grabbed Hank and pushed him off my daughter picking her little body up which was already covered in blood not knowing if she was okay or not still in shock from what just happened and in so much pain couldn't even breathe I couldn't imagine what she was feeling in that moment. After all of that I ran out to the backyard with Finlay in my hands covered in blood Natasha's crying begging my mom and dad to get the keys and get in the car to take her to the hospital got her in the car finally got to the hospital the fear that she had just to see the doctor because she has autism we were beside ourselves on her behalf also the fear of her having epilepsy and any type of trauma to the head is a huge concern and we've been told to seek medical attention if anything happens to her head. A few weeks prior we were at the beach Hank seemed okay same skittish Hank went swimming with me i've never had a problem in my life with Hank when my brother first got him I helped raise that puppy like he was my own oh God I loved to Hank my dream dog. We took him to the beach he swam with me felt like he was protecting me from anything anyone another person came to the beach he immediately walked for me towards this man who was in the water away from me my brother Nathan and his girlfriend Natasha immediately called

him firmly to come! he looked at them and then came back to words me and stayed with me all his life every time I saw that dog all I gave him was love and affection that he deserve. After I got out of the water Natasha and I were talking she told me that a few weeks prior an elderly man that they know got attacked by Hank not sure of the severity of it.
