

## GEORGINA

**Subject:** 2025 Construction Season Update

**To:** Mayor and Council

**From:** Michael Vos, Director, Operations and Infrastructure  
Steve Lee-Young, Director, Community Services

**Date:** May, 7, 2025

### Briefing:

Staff from various departments have been busy preparing for the upcoming construction season in Georgina. In advance of construction activity, Staff aim to communicate a project, its location and potential impact prior to commencement. This is completed via several communication methods including council briefings and reports, social media campaigns, on-site signage for key projects, direct mailers to impacted addresses, door-knob hangers (see Appendix 1) posts to the general disruptions page, email blasts, and website updates.

The Town provides information for its planned construction activities on a web portal, easily accessible from your desktop or mobile device. The [capital projects dashboard and map portal](#) is located on the [Building Georgina | Town of Georgina](#) webpage. This portal includes a link to the [2025 Capital Projects Map](#) that identifies work locations and a brief description of the work taking place. Specific timeframes for work commencement will be communicated to affected properties and residents via direct mailer and/or door hangers in advance of work.

In addition to the digital map, the attached Appendix 2 provides a line-by-line description of the work scheduled for 2025 and the potential impacts of the work. The 2025 construction work activities listed in Appendix 2 are organized into the following types of project categories:

- Parks and Trails
- Buildings and Facilities
- Water and Wastewater
- Roads

The 2025 construction activities list provides the following information about each project:

**Ward:** The ward within the Town of Georgina in which the work falls

**Location 1:** The name of the street, park or facility where work will be occurring

**Location 2:** The specific address or blocks where work will be occurring

**Work Description:** A brief description of the construction work activity

**Disruption:** A brief description of the anticipated impact(s) to the public
