

**Ahead of the meeting:** Request that GEAC read through the [Climate Action Plan](#) in preparation of the meeting.

**Questions for the Committee:**

- In addition to advisement and expertise, are there other ways that GEAC wants to support the implementation of the Climate Action Plan?
  
- As we begin communicating ways for the public and partners to get involved and work with us, does GEAC have any suggestions on who to make sure to reach out to and engage with?
