Location on Property /OR Location on Street: On their driveway/side walk 24 Prosser Cres, Sutton West ON L0E1R0

Date of Incident: Tuesday June 22, 2025

Time of Incident: 8am

Details of Incident: I was walking my Great Dane, Biggie. As we approached the property, the homeowner was outside gardening and watering his lawn, we said "good mornings". Just as we were nearly past the house, their dog, "Chewy," unexpectedly ran out and immediately attacked Biggie.

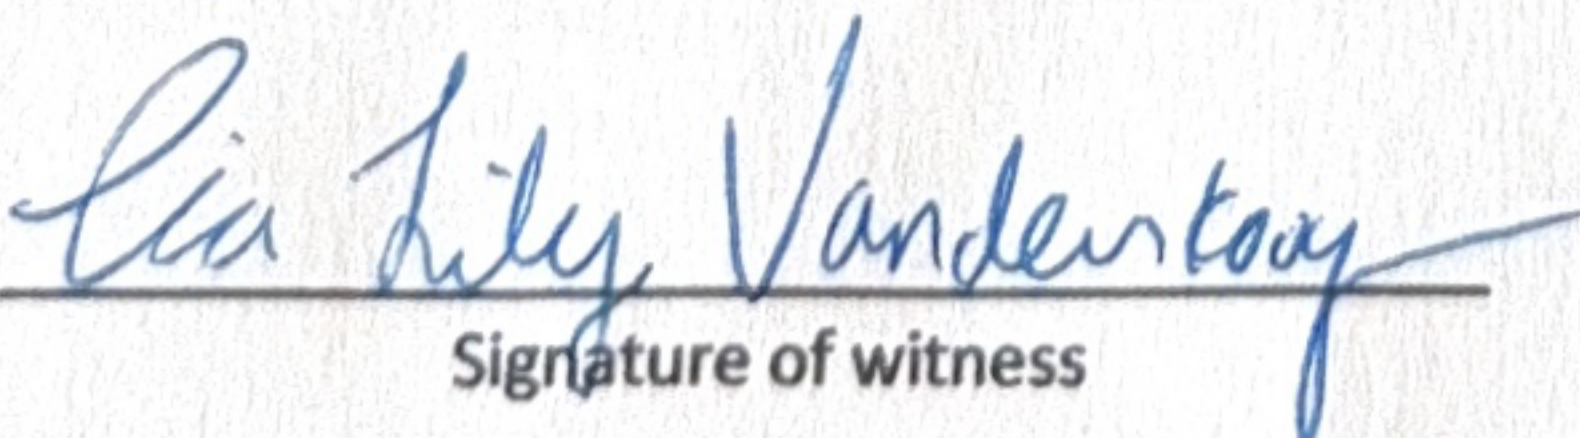

Chewy immediately bit Biggie in multiple areas, including his neck, back, and rear. The homeowner, Tim (Chewy's owner) and I intervened right away to get Chewy off of Biggie.

We left the area as soon as we could. Checking him over at home Biggie was left with puncture wounds on his neck, back, and rear. We cleaned the wounds at home using alcohol and Polysporin.

We brought Biggie to the vet on June 23, 2025, where he was assessed and prescribed antibiotics to prevent infection from his punctures.
